# Timber Queensland Strategic Plan 2016-19

## Vision
A profitable and growing Queensland forest and timber industry.

## Strategy
To work with members and stakeholders to ensure long term wood supply and to realise the benefits of using more forest and timber products and ensure legislation, regulation, standards and policies fully reflect these opportunities.

## Values
- Integrity
- Respect
- Commitment
- Member focused
- Evidence-based

## Priority Outcomes

<table>
<thead>
<tr>
<th>Organisational strength</th>
<th>Enabling policy</th>
<th>Member services</th>
<th>Market growth</th>
<th>Industry profile</th>
</tr>
</thead>
<tbody>
<tr>
<td>Build financial and organisational capacity</td>
<td>Ensure Government legislation, policies and standards provide an enabling environment for investment, competitiveness and growth in the Queensland forest and timber industry</td>
<td>Members are fully informed on industry news and trends and have access to technical and operational advice for their businesses and customers</td>
<td>Promote the wider use and consumption of timber based on its fit-for-purpose and environmental strengths</td>
<td>Promote the positive public profile of the industry</td>
</tr>
</tbody>
</table>

## Priority Actions

- **Organisational strength**
  - Grow the membership base to fully capture the industry supply chain
  - Collaborate with allied organisations (e.g. AgForce, HIA, MBA, FWPA, AFPA) on common issues
  - Expand sponsorship opportunities
  - Pursue best-practice staff development and executive team delivery

- **Enabling policy**
  - Ensure members views are fully incorporated into agreed industry policy positions
  - Directly consult and advocate with Ministers, Members of Parliament, Departments and regulators on key industry issues
  - Collaborate with the Australian Forest Products Association (AFPA) to achieve federal, state and local government policy opportunities for the Queensland industry
  - Maintain technical representation into building codes and timber construction standards committees (e.g. QBCC)

- **Member services**
  - Deliver timely information to members via electronic newsletters and direct consultation
  - Maintain technical outreach services for members (i.e. direct access to technical information and in-house timber expert)
  - Facilitate member and industry networking via regular meetings and forums
  - Identify grant and assistance programs applicable to members

- **Market growth**
  - Develop and deploy educational seminars and events with end users and market influencers (e.g. builders, specifiers, architects)
  - Participate in the Forest and Wood Products Australia (FWPA) Queensland field force project for tall timber structures
  - Collaborate with allied organisations to promote timber sustainability procurement (e.g. 'wood first' policies), targeting both State level and local government policies
  - Facilitate innovation and R&D outcomes through liaison with key research providers and industry

- **Industry profile**
  - Pursue positive communications and public commentary with key stakeholders (e.g. Government, media, end users)
  - Support third party public endorsement of the industry (e.g. local communities, environmental organisations)
  - Ensure Timber Queensland is recognised as the peak industry body for media contact and commentary
